VENZON  
LIGHTING

# WHO WE ARE?

Venzon Lighting is a "Design and Engineering for Manufacturing" firm founded in March of 2013. It is the renaissance of the founder's 30 years lighting experience gained in the United States, China and The Philippines after his brief hiatus from the industry. Catering to the hospitality and the design trade, VLM's strength in "Sensible Engineering" can be traced from its appreciation of the after sales challenges of the ultimate users of its products.

Cris Venzon with a group of designers, continually defy conventional lighting trends by matching local materials with modern luminaires using precision manufacturing technology finished by local craftsmen.

Our showroom and factory is in a 4,000 square meter facility in an 8,000 industrial lot, located at 138 Purok 1, Panipuan, City of San Fernando, Pampanga 2000.

Crisanto N. Venzon  
VLM President
